

**The Premier Medical Service at Stansted Airport**

# **TRAVEL ADVICE and VACCINATIONS**

*A convenient and professional service*

**Aviation Medica** is a well established private medical facility at Stansted Airport Business Park. In addition to our portfolio of medical services, we are pleased to offer you a travel consultation and vaccination service, tailored to suit you in pleasant and professional surroundings.

Services and benefits include:

- Expert advice tailored to your itinerary and medical needs
- Easy reference advice sheets specific to your trip
- Yellow Fever Registered Centre
- Latest information about health risks and outbreaks worldwide
- All major vaccines in stock
- Free parking and convenient location

Our staff are fully qualified and experienced Nurse Advisers. Consultations typically last 30 minutes and the emphasis is not just on giving vaccines, but also providing advice on other important precautions to help you stay in peak condition while you are away and after you return home. Many people, including airside staff, benefit from our travel health service and advice and return year after year.

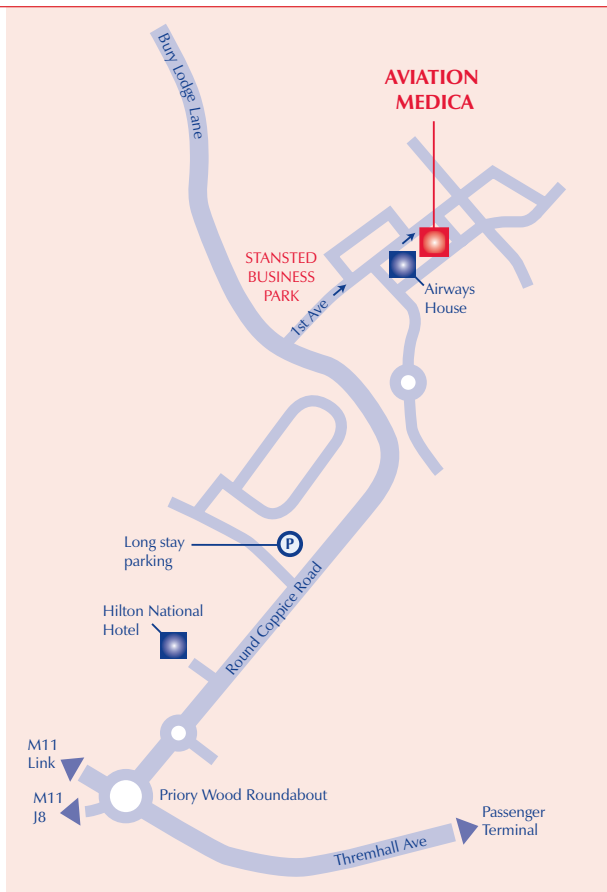

We do consider requests for last-minute vaccinations, but strongly recommend that you book several weeks in advance to allow for the completion of vaccination courses.
